Education

Web Development Immersive

Jun 2015 - Sep 2015

General Assembly

- Over 600 hours of MEAN stack(MongoDB, ExpressJS, AngularJS NodeJS), Ruby on rails, PostgreSQL, Meteor JS, jQuery, Javascript, etc. and 4 projects during the course.
- 1st Project- "HelloWorld" | Javascript | Canvas Tag | PHP | HTML | CSS |
My game programming portfolio. It's a RPG game like interface which has 2 games into it - 'Whac a mole' and 'Bubble shooter'.
<http://ianh.co.nf/>
- 2nd Project - "M Cinema" | Ruby on rails | PostgreSQL | Ruby | Javascript | jQuery | HTML | CSS
A movie theater pretend app. As user, you can see what movies on the theater, book tickets and see your booking history. As admin(ID:admin@mtheater.com, PASSWORD: admin), you can add movies, make movie schedules.
<http://mcinemas.herokuapp.com/>
- 3rd Project - "Stalker App" | NodeJS | ExpressJS | MongoDB | Javascript | jQuery | HTML | CSS |
| Google Plus Auth & API | Twitter Auth & API | Facebook Auth | Instagram API | Youtube API | Tumblr API
A website you can see someone else's public feeds from Instagram, Google Plus, Twitter, Youtube and Tumblr in a single page(even without login from each service). This was a group project I worked on authentication api(local, facebook, google, twitter) and twitter panel, tumblr panel.
<http://stalkerrr.herokuapp.com/>
- 4th Project - iBalloon | MEAN Stack(MongoDB, ExpressJS, AngularJS, NodeJS) | Javascript |
| Socket IO | Google MAP API | Instagram Auth & API HTML | CSS | Gulp | SASS
You choose a photo from Instagram and set destination. you will see the photo moving slowly from your current location to the destination. You can also see other user's photos on google map.
<http://iballoon.herokuapp.com/>
- Small project Theme Changeable Tic Tac Toe - jQuery | javascript | HTML | CSS
Batman vs Superman, Android vs Iphone theme Tic Tac Toe, you can change theme after first game.
